¹ Please ask your dealer for details.

² We recommend that you have an interim check carried out one year or 15000 miles from the date of first registration and then one year or 15000 miles after each service as part of the professional routine maintenance of your vehicle.

³ Every two years or every second service until your vehicle is six years old and then at least every year thereafter. **Note:** Do not exceed the specified distance interval between services. Resulting component damage may not be covered by the vehicle Warranty.

Note: Do not exceed the specified interval between body and paint checks. If you do not have the body and paintwork checked in line with our recommendations, the Perforation Warranty will be invalidated. Have your vehicle serviced earlier if the oil change reminder illuminates. See **Owner's Manual**.
